OF

GREEN-HOUSE AND HARDY PLANTS,

CONTAINING CHOICE COLLECTIONS OF

**AZALEAS, CAMELLIAS, CHRYSANTHEMUMS, GLOXINIAS, FUCHSIAS,
CINERARIAS, VERBENAS, ETC., AND CARNATIONS, DAISIES,
PICOTEEES, PHLOXES, PÆONIES, PANSIES.**

1857.

PRESS OF J. L. HALLWORTH, NO. 37 WASHINGTON STREET, BOSTON.

MESSRS. HOVEY invite the attention of their friends and the public to the new edition of their Catalogue. It contains many rare and beautiful novelties, worthy the attention of all amateurs.

Green-house plants of all kinds being grown in pots, they may be transported *at any season of the year*. The season for transplanting the hardy herbaceous plants is *April, May and June*, in the *spring*, and *September, October and November* in the *autumn*. For the South and West, the most favorable period is the autumn, when they may be transported to the most distant parts of the country.

Boxes of plants, or bundles of trees, packed in good order, will be delivered in Boston, *free of expense*, and shipped, or forwarded according to directions. If no directions are given, the best mode of transportation will be selected; but in all cases, the goods are at the risk of the purchaser, and if any delay or loss occurs, after shipment, or delivery at the Express Office or Railroad, the Proprietors do not hold themselves responsible.

All *letters of inquiries, or applications for catalogues*, to receive attention, should enclose a postage stamp.

☞ All orders for plants, from unknown correspondents, must be accompanied with a draft on Boston or New York, for the amount.

The Nurseries are situated on the Cambridge road to Mount Auburn, half a mile east of Harvard Colleges, about two miles from Boston, and contain upwards of forty acres. All amateurs and lovers of plants are invited to visit the Nurseries.

In the month of May, a splendid collection of Tulips will be in flower. In June, upwards of 1000 varieties of hardy Roses. During the Summer, an unrivalled collection of Pæonies, Phloxes, Verbenas, &c.,—and in September, a magnificent collection of Dahlias and Japan Lilies. In the Conservatory, the Camellias will be in bloom in January; the Azaleas in March; and the Pelargoniums in April and May.

☞ A liberal discount will be made to the trade, and to individuals purchasing large quantities of plants.

*** *The Cambridge Railway Cars pass directly by the Nurseries every fifteen minutes during the day.*

CATALOGUES of *Fruit Trees, Ornamental Trees and Shrubs, Roses, Green-house plants, Dahlias, Bulbs, and Agricultural and Flower Seeds*, are issued separately, and will be forwarded to all applicants enclosing a postage stamp.

☞ All orders should be directed to

“MESSRS. HOVEY & CO.,

7 Merchants Row, Boston.”

CATALOGUE

OF

GREEN-HOUSE AND HOT-HOUSE PLANTS.

THE collection of Green-house and Hot-house Plants is very extensive, and comprises not only all the popular and well known species and varieties, but all the new, rare and showy kinds of recent introduction. No pains have been spared to enrich the assortment by importation from England and the Continent, or by the addition of new varieties of American origin; and arrangements have been made with foreign nurserymen, by which every desirable plant will be added as speedily as possible.

For a more ready reference to some of the popular flowers, they are arranged under special classes.

Those marked thus (*), are climbing plants.

AZALEA INDICA.

The Azalea is one of the showiest conservatory, green-house, or parlor plants, and from its simple cultivation and free flowering habit, is eminently adapted to the latter situation, where it opens its flowers as readily as in the green-house. With the improvements which have been made in the production of new varieties, it ranks among the most desirable plants for a collection.

CARNATIONS.

The Carnation is one of the most brilliant and showy flowers. Easily cultivated and quite hardy, (if properly protected,) no garden can be complete without a smaller or larger collection. From the generally received notion that it requires extra care and attention, it has been unjustly neglected; and we cannot but hope it will receive that attention which its great merits demand. Our collection will be yearly augmented by new kinds from England, and by our own seedlings.

PICOTEES.

The Picotee is scarcely less beautiful than the carnation; with many it is a greater favorite. It is of the easiest cultivation,—quite hardy,—and produces a profusion of delicately edged and tinted blossoms.

Picotees are divided into four classes, viz.,—Purple Edged, Red Edged, and Scarlet Edged, all with white grounds; and Yellow Grounds with Purple Edge.

Among the following are several seedlings unsurpassed by any of the English varieties.

HERBACEOUS PÆONIES.

Few hardy flowering plants have been more popular or admired objects in the garden, than the Chinese Pæonies. Easily cultivated,—flourishing in all situations,—they have become indispensable ornaments to every collection. With the introduction of new varieties, their attractions have been greatly increased. All the varieties are *double*, unless otherwise noted.

CLOVE PINKS, GERMAN PICOTEES, &c.

The Pink sports into a variety of colors, many of them exceedingly beautiful, which cannot be classed with the Picotees or Carnations; some of them being *selfs*, or of one color; some *bizarres*, or of various colors, striped and mottled; while others are edged, and fringed at the edges. We have a great collection of seedlings, many of them very dissimilar, which possess great beauty.

Twelve beautiful varieties, \$2.00.

ANTIRRHINUMS.

A fine collection of beautiful seedlings of several colors, per dozen \$1.50 to \$2.00.

HOLLYHOCKS.

A fine assortment of seedlings and named sorts, per dozen, \$2.00 to \$4.00.

MIMULUSES.

Fine seedlings of various colors, each, 25 to 50 cts.

DIELYTRA SPECTABILIS.

This splendid plant is one of the hardiest perennials, and of the easiest cultivation, growing in any good garden soil, and in almost any situation. It grows to the height of 3 feet, with handsome pæony-like foliage and graceful racemes of singularly-shaped, rosy-pink flowers, which remain in bloom for a long period. It is one of the finest acquisitions to the flower garden.

Plants \$3.00 per dozen. Strong plants 50 cents each.

NEW EVERGREEN or CONIFEROUS TREES.

A fine collection of all the new and beautiful evergreen trees, several of which, though not sufficiently hardy for the latitude of the middle and New England States, are grand ornaments of the conservatory and verandah, where their beautiful habit of growth and deep green foliage always render them highly ornamental.
